REQUIREMENTS

1. Once complete the site should load no slower than existing website speeds as measured by [PageSpeed Insights (google.com)](google.com).
2. The new navigation must allow non-programmers to easily make customized changes through an intuitive drag and drop interface.
3. All aspects of the new header and navigation must be optimized to prevent any warning from Google.
4. When scrolling the body of the page, the header or navigation should follow.
5. Phone buttons and email button must be functioning.
6. Menu design should resemble that of daytraslation.com with some modifications.
7. Upload form will resemble day translation with some modifications.
